

Borrowing bedding in the residence halls is ending. We offer bargain purchase of our own

Dear Students,

College Boards approved on 17th August, 2020 the accommodation board's proposal that, primarily **for sanitary reasons and sleeping comfort**, students living on SKM dormitories from September 2020 **should exclusively have their own bedding – that is, a duvet, a pillow, and bed sheets.**

For the above reasons, we therefore announce that from **1st September, 2020, bedding, sheets, pillow cases and quilt covers will not be available when boarding the rooms, and SKM will not provide their washing.**

Instead, in agreement with the accommodation committee, and college boards, SKM secured **the following options for students:**

1. SKM has **new sets (a pillow, a duvet, bed sheets) ready to be bought at the cost**, which will be announced after the tender process is completed (price will be around 500,- 700- CZK , students can buy the set when boarding accommodation).
2. SKM has prepared **older sets (a pillow, a duvet, bed linen) available for purchase at a symbolic price of 100,- CZK** (students can buy the set when boarding accommodation, but only a limited number are available).
3. Students who currently live in the dormitories and have follow-up accommodation in the new academic year **can buy the currently used sets for a price of 100,- CZK.**
4. **Students can bring their own duvet and pillows and bed linen to the dormitories.**

At the same time, from 1st September, 2020, **students at SKM halls of residence will be able to wash and dry without charge. During the month of November and December, SKM will purchase additional washing machines and dryers for students' needs.**

Thank you for understanding.

Renata Pavlicová,
Head of accommodation operations
