

Justification for the increase in dormitory prices for the academic year 2022-2023 with effect from July 1, 2022

Dear students:

We would like to inform you that the new accommodation price list for the academic year 2022 will come into force on July 1, 2022-2023.

Surely you all are noting the sharply rising commodity prices that we cannot influence, so we had to increase the dormitory accommodation prices more than is usual.

Despite the above price increase, the management of the Masaryk University has decided not to pass on all costs to students and will cover a part of the increase from its reserves in the amount of approximately CZK 60 million, by which the dormitory prices will not increase in the next academic year.

The increase in dormitory prices was approved by the leadership of the Masaryk University and subsequently by the MU Accommodation Commission. The minutes of the Accommodation Commission are publicly available.

We apologize and thank you for your understanding.

Bc. Kamil Kulíšek  
Director  
SKM, Masaryk University
